To Whom It May Concern,

I have known **Magret Boluwatife Oladunjoye** for 4 years as her lecturer in the Computer Engineering Department. I can say that **Magret** had the highest performance during the lectures that I gave to Software Engineering students.

She is a motivated individual – working very well in teams and at the same time can take the initiative in leading the team – as well as being dedicated and working hard to achieve her goals and projects by the deadline. She is self-confident, shows great interest and enthusiasm in her studies and field, and has the strength and commitment relating to pursuing her future field of studies and career.

I should also acknowledge that she is a very responsible and intelligent person, and it is with great pleasure that I recommend **Magret** as a candidate graduate student for your University, as I am equally confident that she will continue to be a successful student in her future studies and work– gaining the tools to start a career in the field she is very interested in.

I strongly suggest **Magret Boluwatife Oladunjoye** as a PhD student in your institution. I am sure that her success will be excellent in theoretical and practical research points of views.

Please feel free to contact me should you require further reference.

Respectfully Yours,

Asst. Prof. Dr. Ahmet Ünveren
Vice Chair
Department of Computer Engineering
Eastern Mediterranean University
Gazimagusa
TRNC, Mersin 10
